Excerpt from Letter From Lemuel Shattuck in Answer to Interrogatories of J. Preston: In Relation to the Introduction of Water Into the City of Boston Dear Sir: - The interest which has been excited on the subject of supplying the city of Boston with pure water, has not, I presume, escaped your watchful attention; and, having had the pleasure and advantage of examining a statistical work of yours, upon another important subject, (The Vital Statistics of Boston,) and knowing the interest which you took in public affairs during the time you were a member of the Common Council, I have been led to suppose you may be in possession of facts bearing on the water question, that I have not been able to obtain, but which I deem it of the highest importance for the public to be in possession of, in order that all may form a deliberate and sound judgment, and act understandingly in relation to it, when called upon so to do. Believing that you will agree with me as to the desirableness of introducing pure water from some source, if there be an urgent demand for it, and circumstances are favorable thereto, I propose to call your attention, and ask your reply, to the following interrogatories. 1st. Is there a necessity for the introduction of water into Boston from some foreign source? If so, how great is that necessity?
