Organic gardening is the wave of the future that takes a page from the past. It involves going back to our roots and gardening the way our grandparents and great-grandparents did. It means reclaiming our agricultural heritage from the big companies and bringing it back to basics. The key to succeeding at organic gardening right from the start is taking the time to plan out how the different pieces of your garden system will work together to produce optimal results. Each garden is only as strong as the weakest part of its system. This means that taking the time to test and amend the soil matters...
