Ishi Press. Paperback. Condition: New. 298 pages. Dimensions: 8.3in. x 5.6in. x 0.8in. The basic ideas of Chess are well known, and over the years many prominent Masters and Grandmasters have written books designed to teach beginners those rudiments. So it seems reasonable to ask why yet another exposition of this same material is either warranted or necessary. The answer is simple. Learn Chess Fast is clearer, more logically organized, more complete, and, especially, more insightful than anything ever written, progressing smoothly and effortlessly from the most basic concepts to the more complex, and thus making the beginners learning task far easier. It does this because it represents the culmination of the authors 50 years of successful experience in teaching both Chess and Go beginners of all ages, from young juveniles thru older adults. Throughout, key ideas are boldly highlighted in prominent text boxes, so the things most in need of the students attentionlearning are clearly distinguished from supporting concepts, and all ideas are profusely and clearly illustrated. Early on, the concept is introduced that the standard version of Chess that forms the books subject is really only the most prominent variant of an entire complex of similar but sometimes strikingly different games. Then its explained that the special rules governing such things as Castling and the En Passant pawn capture are only the unavoidable residue of the games speedup in the Middle Ages, with the result that what other books present as seemingly arbitrary and oft confusing facts to be memorized, here become logical constructs that are easily remembered! The books many hundreds of diagrams and clear explanatory text better answer the key questions that all Chess primers must address, and such things as its exposition of the reasons why memorization of the Openings is counterproductive will save the beginner...
