Excerpt from Foreign News on Hemp, 1927 In View of the critical situation in the Italian hemp market, the Hemp Growers Consortium issued the following program toward the end of 1926: (1) Reduction of hemp acreage; (2) greater attention to seed selection and an export embargo on seeds; (3) standardization of the product; (4) credit for hemp farmers. Hemp farmers are being urged to plant less hemp during the spring of 1927 and to devote the area not sown to hemp to sugar beets. Suggestions are also being made that hemp should be used as a substitute for imported jute. The best informed element in the hemp industry considers that the only solution to the Italian situation is the development of a domestic hemp textile industry, and an export trade in the manufactured products.
