Routledge. Paperback. Condition: New. 208 pages. Dimensions: 9.0in. x 6.0in. x 0.5in. In recent years, Information Technology (IT) has been transforming business practice in many sectors resulting in efficiency gains and improved services for the client. The construction industry lags behind other manufacturing and service industries in adopting the new technology. To promote the wider use of IT in construction, it is essential to equip practitioners and graduates of construction related disciplines with knowledge of existing construction IT applications.
