Over the next three years, all the prisons in New Earth were emptied, and the inmates sent to the moon. Only 63 of the inmates survived the voyage. The decision to move New Earth s prison system to the moon was made for two reasons: first, it freed up critical space on the planet s surface for housing developments and industrial facilities; second, moving dangerous criminals to the moon would keep the population of New Earth safer. In 2139, The New World Order passed a law designed to deter criminals from ever committing a crime. Not only would the criminal be sent to the Moon Penitentiary, but their entire family - parents, and siblings, or spouse and children, depending on the age of the convicted person - would be sent along with them. Fugitive Dirk Haston has managed to rescue his wife and daughter from the lunar prison his family was forced into when their son, Garth, committed a crime on earth. Though he has mixed feelings toward his son, he s won t leave the moon without him. Stuck in the biodome without many resources, Dirk decides to reach out to a guard who has come through for him before. Unsure of her willingness, Dirk s family breaks into Hanri s house and take her hostage out of desperation. Though she faces the ruthless director s torture and her own...
